
Transferring license

Posted by RB - 2007/10/18 01:12

Hello!

I like your product and am interested in buying and reselling to restaurant owners. I hope there is not a problem with transferring the first license from my demo site (after I have translated and checked it out) to my first client when the time comes?

Thanks

Hi RB,

Transferring the license in this way will not present a problem at all.

Please don't hesitate to contact us if you have any other questions.

Good luck and thank you for your interest in TableBoss.

Best Regards

Thanks!

I will be back next week to purchase TableBoss.
