I tried filling in the the contact form but didn't get an answer on my question. Cause we have an cutomer who has a large hotel an have more than one room where you can eat so is it possible to configure more than one room?

kind regards,

Mike

Mike,

In the current version multiple rooms is not supported. However see this Forum topic.

Ok looks interesting.

Than A few final Questions.

Cause we are busy with some major projects and we expect a lat of little restaurants an cafÃ©'s.

So Is it possible that we can be an reseller for you in the netherlands and that there be small discount for us so we can resell to customers so we can have a small provision for resseling you're product?

kind regards
