## Pre sales question : Licensing

Hello,

We own a company that offers telecom services to customers. Some of those are restaurants for who we do the reservations... My question is: Suppose we have 5 restaurants for which we do the reservation, do we need 5 Table Boss licenses? Or just one and can we create different floorplans?

I hope to hear from you soon.

With kind regards,

Mark

Hi Mark,

Each would require a License. We currently off a 10% discount on bundles of 5. See our pricing when you click [Purchase Now](#).
