## Help, I need change Label in desk reservations

Posted by Mauricio - 2010/04/20 12:15

---

Hemos comprado la Lic. nos gustaria cambiar en la mesa de reservacion las etiquetas: Comida, almuerzo y cena por: Reunion, Mañana , Tarde

y tambien modificar el tamaño de las mesas que es un max de 10, queremos modificar estos parametros, como lo hacemos, es importante ya que compramos la Lic. y enviamos correo solicitando ayuda y no hemos optenido respuesta.

tambien desactivar algunos botones...

-----  
We buy Ms. we would like to change in the reservation table tags: Food, lunch and dinner: Reunion, Morning, Afternoon

and also change the size of the tables is a max of 10, we change these parameters, as we do, is important because we buy and ship Mrs. mail asking for help and we did not choose to answer.

also disable some buttons ...

Thks... <http://tableboss.com/images/fbfiles/images/example2.JPG>

Hi Mauricio -

You should be able to change the labels in the Language editor. Please see [http://tableboss.com/component/option,com\\_helpserver/Itemid,44/lang,en/#article%3A82](http://tableboss.com/component/option,com_helpserver/Itemid,44/lang,en/#article%3A82) for more information.

In order to change the table size, you will need to manually edit an entry in your database. The database table you will need to edit is jos\_tb\_table - find the table by name and edit the number of seats.

In order to disable the buttons in the reservation manager, you will need to edit the code located in components/com\_tableboss/tpl/js/tb.mgr.js (line 229).

Best Regards-  
Mark

Mark, thank you very much for your help, I would like if you can tell how to make the modifications:

compenente boss in the table. / Leenguaje, we replace the words  
mettings for meal  
lunch for tomorrow  
Evening for dinner

appreciate if you tell us the way or do this.  
code while insert or delete to remove the buttons

---

and how I can modify the database without harming it or where the meeting or seek.

Thank
